home-iX offers student internships and student jobs among others as

Software Developer Internet of Things (Frontend)

Job-ID: S-189-003

home-iX is looking for you to join our team. Founded in 2016, we are a growing start-up in and from Stuttgart that speaks IoT and helps companies to let their smart services and devices participate in the digital lifestyle. Are you studying (business-) information technology and want to play an active role in a fast-growing company? Then home-iX is the right place for you!

Your Profile

- Structured and quality-oriented work in an international team
- German/English (spoken and written skills)
- First Experiences with Agile Software Development like e.g. Scrum
- Experience in Microsoft Office products like Word, PowerPoint and Excel

- Skills in one or more of the following programming languages or technologies
  - o Angular 5+, SCSS and HTML 5
  - o iOS Development with Swift
  - o Mongo or other NoSQL databases
  - o JSON, REST, Web Services
  - o Git

Tasks

- Feature development of existing Angular 5+ Web Dashboard
- Feature development of existing iOS SDK
- Participation in Scrum meetings
- Maintenance of functional & technical design documentations
- Testing and documentation of software features

Benefits

- Exciting insights into the everyday life of professional software development
- Startup culture in an international team
- Working with big companies in the growing Internet of Things (IoT) market
- Freedom to bring your own device (BYOD)
- Flexible working hours (home-office or on-site)
- Free Netflix or Spotify Premium Account during the period of the engagement

Interested? Send us your CV and a short Letter of Motivation to jobs@home-ix.com
or call us under +491737025681 in case of questions.
